SECTION A - SUPPLEMENTAL INFORMATION

The purpose of modification (P00023) is to do the following:

1. To incorporate an approved part substitution/update for the Container Security Transponder (CST). To include the Door Mounted Data Rich Transponder and Door Mounted License Plate Transponder. In the design stage, IDENTEC identified improvements that could be incorporated into the mechanical housing of the Container Security Transponder (CST) SLINs X004DA/X006DA and implemented the changes into the new products as well as the CST.

The CST configuration items are unaffected by the change and remain at the approved configuration levels. The table below shows a comparison between the old and new packaging. The antenna has been replaced with a smaller and equally effective antenna.
