SECTION C-1

CLAUSES INCORPORATED BY FULL TEXT

PART C-1

In accordance with FAR 12.302, Tailoring of Provisions and Clauses for the Acquisition of Commercial Items, FAR Clause 52.212-4 is tailored as follows to reflect special contract terms and conditions that are unique for this contract. This tailored clause supersedes the version of FAR Clause 52.212-4. Sentences that include tailored portions are identified in **BOLD**.

FAR CLAUSE 52.212-4

CONTRACT TERMS AND CONDITIONS-- COMMERCIAL ITEMS (FEB 2007)

(a) Inspection/Acceptance. The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. If repair/replacement or reperformance will not correct the defects or is not possible, the Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post-acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item. **For delivery orders against this contract that contain only supplies, representatives of the Defense**

Contract Management Agency shall perform inspection and acceptance of the supplies at origin. For all other orders against this contract, inspection and acceptance of all items contained on the order, will be performed by the using activity representative identified on each delivery, task, or Governmentwide commercial purchase card (hereinafter referred to as "purchase card") order.

(b) Assignment. The Contractor or its assignee may assign its rights to receive payment due as a result of performance of this contract to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act (31 U.S.C. 3727). However, when a third party makes payment (e.g., use of the purchase card), the Contractor may not assign its rights to receive payment under this contract.

(c) Changes. **The Government reserves the right to issue unilateral modifications to effect administrative changes to delivery orders and task orders. Further, the Procuring Contracting Officer (PCO) may issue unilateral modifications to effect administrative changes to the contract. All other changes in the terms and conditions of this contract may be made only by the PCO through written agreement of the parties.**

(d) Disputes. This contract is subject to the Contract Disputes Act of 1978, as amended (41 U.S.C. 601-613). Failure of the parties to this contract to reach agreement on any request for equitable adjustment, claim, appeal or action arising under or relating to this contract shall be a dispute to be resolved in accordance with the clause at FAR 52.233-1, Disputes, which is incorporated herein by reference. The Contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(e) Definitions. The clause at FAR 52.202-1, Definitions, is incorporated herein by reference.

The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement or any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(k) Taxes. The contract price includes all applicable Federal, State, and local taxes and duties.

(m) Termination for cause. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, **or for any portion of the contract minimum guaranteed amount remaining at the time of termination**, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(n) Title. Unless specified elsewhere in this contract, title to items furnished under this contract shall pass to the Government upon acceptance, regardless of when or where the Government takes physical possession.

(o) Warranty. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract. **Additional warranties requirements are discussed in Contract Part D, paragraph entitled "Warranty".**

(p) Limitation of liability. Except as otherwise provided by an express warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items.

(q) Other compliances. The Contractor shall comply with all applicable Federal, State and local laws, executive orders, rules and regulations applicable to its performance under this contract.

(r) Compliance with laws unique to Government contracts. (2) the Assignments, Disputes, Payments, Invoice, Other Compliances, and Compliance with Laws Unique to Government Contracts paragraphs of this clause at 52.212-4 (**Part C-1**);

(NOTE: The Government reserves the right to unilaterally modify the contract to change the 60-day delivery requirement to the contract original 45-day delivery requirement; in such case, the effective date will be at least 60 days from the date the Contracting Officer signed the contract modification.) In the event a Certificate of Conformance is authorized for use, the Contractor shall deliver hardware and software items to the destination specified in the order within the aforementioned timeframes. However, see FAR Clause 52.211-15, Defense Priority and Allocation Requirements, under the heading "Clauses Incorporated by Reference". Orders may be placed by any authorized Contracting Officer or purchase card holder supporting the Department of Defense, the United States Coast Guard (CG), North Atlantic Treaty Organization (NATO), Coalition Partners, other Foreign Military Sales (FMS), and other Federal agencies. Ordering Contracting Officers and purchase card holders are empowered to place orders in accordance with the terms and conditions of the contract, the Federal Acquisition Regulation (FAR) and applicable supplements, and their own agency procedures. Any request for deviation from the terms of this contract must be submitted to the PCO, who will be identified under separate cover.

7. The COPOs will forward the order to the Contractor. Distribution of orders shall be made by the ordering contracting offices, in accordance with FAR 4.2, DFARS 204.2, and agency procedures.

8. Issuance of an order shall be defined as the date order is awarded (see also paragraph entitled “Delivery Requirements” in this Part).

(i) Ordering Procedures for Orders Exceeding \$3,000.

1. In accordance with FAR 16.505(b) for all orders exceeding \$3,000, but not exceeding \$150,000, the Ordering Contracting Officer shall give every RFID-III Contractor a fair opportunity to be considered for a delivery or task order unless one of the exceptions to fair opportunity applies (see paragraph 3 below). All of the RFID-III contracts can be viewed at: <http://www.ait.army.mil/contracts/rfidiii/rfidiii.html>. The Ordering Contracting Officer must document his/her rationale if applying one of the exceptions to fair opportunity; no special format is required.

2. All orders exceeding \$150,000 shall be placed on a competitive basis in accordance with FAR 16.505 and, if a DoD order, DFARS 216.505-70(c) unless a “Justification for an Exception to Fair Opportunity” is prepared in accordance with FAR 16.505(b)(2)(ii)(B). The requirement to place orders on a competitive basis is met only if the Ordering Contracting Officer provides a notice of intent to purchase to all RFID-III Contractors in accordance with paragraph 4(b) below and affords all RFID-III Contractors responding to the notice a fair opportunity to submit an offer and to be fairly considered. Orders exceeding \$150,000 that are not issued on a competitive basis are subject to the public posting requirements set forth in FAR 16.505(b)(2)(ii)(D).

3. The applicable exemptions to the fair opportunity (FAR 16.505 (b)(2)) and competitive-basis requirements set forth in the preceding paragraphs are:

(a) The agency need for the supplies or services is so urgent that providing a fair opportunity would result in unacceptable delays.

(b) Only one awardee is capable of providing the supplies or services required at the level of quality required because the supplies or services ordered are unique or highly specialized.

(c) The order must be issued on a sole-source basis in the interest of economy and efficiency as a logical follow-on to an order already issued under the contract, provided that all awardees were given a fair opportunity to be considered for the original order.

(d) For orders exceeding \$150,000, a statute expressly authorizes or requires a purchase be made from a specific source.

4. Unless one of the exemptions in paragraph 3 applies, the Ordering Contracting Officer will initiate the order process as follows to satisfy the aforementioned fair opportunity and competitive basis requirements:

(a) For orders with values exceeding \$3,000, but not exceeding \$150,000: The Ordering Contracting Officer must provide all RFID-III Contractors a fair opportunity to be considered. However, the Ordering Contracting Officer need not contact each of the RFID-III Contractors if there is information available to ensure each Contractor is provided a fair opportunity to be considered. The Ordering Contracting Officer may exercise any method of order placement procedures that satisfies the requirements of FAR 16.505(b)(1). For example, if an order is for FFP CLINs/SLINs only and the selection decision will be based on price alone, the Ordering Contracting Officer could satisfy the fair opportunity requirement by considering each Contractor's total price for the required items using the applicable contract prices and issue an order to the lowest priced Contractor. However, if the order contains TES the Ordering Contracting Officer must issue a proposal request to the RFID-III Contractors (reference the paragraph entitled "Task Order – Technical Engineering Services (TES)" of this Part).

(b) For orders exceeding \$150,000: The Ordering Contracting Officer will issue a proposal request to all RFID-III Contractors, which includes a description of any supplies to be delivered and any services to be performed and the basis upon which the selection will be made. If the order contains TES, the proposal request shall include a Statement of Objectives (SOO), a Performance Work Statement (PWS) or a Statement of Requirements (SOR), depending on the nature and complexity of the requirement. Additionally, if the order is estimated to be in excess of \$5,000,000, the proposal request shall also include the significant evaluation factors and subfactors and their relative importance and if award is to be made on best value basis, a written statement documenting the basis for award and the relative importance of quality and price factors.

5. Price must be considered in every selection decision. Additional selection criteria for the orders may consist of, but not be limited to, such factors and/or subfactors as: Technical, Management Plan, Past Performance, and/or Small Business Participation.

6. The RFID-III Contractors are encouraged to respond to all proposal requests by the specified submission date. The Contractors' proposal shall contain sufficient detail to permit the Government to evaluate the proposal, in accordance with the stated evaluation criteria. If the proposal is for TES, the proposal shall comply with the requirements identified at the paragraph entitled "Task Order – Technical Engineering Services (TES)" of this Part. At the discretion of the Contracting Officer, the Government reserves the right to require all Contractors to respond to any particular proposal request.

7. The Contractor is responsible for all bid and proposal costs incurred in performance of the contract.

8. Performance under orders shall commence only after the receipt of an executed order via facsimile or e-mail, signed by the Ordering Contracting Officer. The Government shall not be obligated to reimburse the Contractor for work performed, items delivered, or any costs incurred, nor shall the Contractor be obligated to perform, deliver, or otherwise incur costs except as authorized by duly executed orders.

9. The Government reserves the right to withdraw and cancel an order at any time prior to execution if issues pertaining to the proposed order arise that cannot be satisfactorily resolved. The Ordering Contracting Officer's decision on each order shall be final and shall not be subject to protest under FAR Subpart 33.1, Protest, except for a protest that the order increases the scope, period, or maximum value of the contract or a protest of an order valued in excess of \$10,000,000. The NCRCC Ombudsman will review complaints from the RFID-III Contractors and ensure that all Contractors are afforded a fair opportunity to be considered for each order, consistent with the procedures in this contract. The designated Ombudsman is:

10. The Government may unilaterally change these ordering procedures at any time and at its sole discretion.

(j) Ordering After Post Award Product Testing Process.

(1) After contracts are awarded and Post Award Product Testing Process has commenced, the Government reserves the right to place orders with contractors whose equipment passed the required Post Award Product Testing Process in accordance with Attachment 18 of the contract. For execution of Post Award Product Testing, contractors will be notified by the Contracting Officer three days after Notice to Proceed, to provide the Government with the same equipment which passed the pre-award Product Demonstration.

(2) Contractors equipment fail the Post Award Product Testing Process will not receive an order until the contractor has passed the required post award testing procedures. In the event the contractor does not pass after the third attempt of retesting, the Government has the right to take any one of the following actions, at the discretion of the Contracting Officer:

- i. allowing the Contractor's equipment to be retested;
- ii. excluding the Contractor from task order competition;
- iii. allowing all Contractors to compete for task/delivery orders, with passing the Post Award Testing Process being an evaluation criterion; or
- iv. terminating the Contractor for default.

(k) Task Order – Technical Engineering Services (TES).

1. Upon receipt of proposal request for TES, which includes a description of the tasks; the Contractor shall submit a price proposal as soon as possible, but not more than fifteen workdays after receipt of the request unless so agreed to by the Ordering Contracting Officer. The Contractor's proposal shall contain sufficient detail to enable the Government to determine the acceptability of the proposal and shall include, as a minimum:

(A) A brief description of the technical approach which demonstrates the Contractor's understanding of the task(s);

(B) Proposed timeline schedule;

(C) Proposed labor categories from the Master CLIN listing and the number of hours for each category;

(D) Proposed Incidental Materials including price and description of each item (see paragraph "Incidental Materials" in this Part) and;

(E) Proposed price for Travel with a breakout of airfare(s), per diem, rental car(s), and any other travel-related expenses.

(F) For turnkey proposals only:

- (i) Proposed RFID-III hardware and software CLINs required for the proposed solution; and
- (ii) Any required Government-provided AIT and Active RFID hardware and software and the associated logistical requirements (e.g., locations and dates for the Government to furnish the items).

2. The Government will negotiate a total firm-fixed price for the effort, excluding incidental materials. This firm-fixed price will include all labor, travel, and per diem required to complete the effort and will be included in the task order at CLIN 0019. If applicable, the Government will negotiate a separate firm-fixed price for the incidental materials, which will be included in the task order at CLIN 0023. The incidental materials will be consistent with paragraph entitled "Incidental Materials" in this Part.

3. Travel and per diem shall be consistent with the then current rates, requirements, and limitations applicable to Government personnel in the Federal Joint Travel Regulations or other applicable regulation.

(l) Incidental Materials. Incidental Materials shall only include those items/materials necessary to complete the installation service ordered in accordance with the paragraph entitled "Task Order – Technical Engineering Services (TES)" in this part. The price for the items/materials shall be negotiated on a firm-fixed price basis for each task order, if required (reference paragraph entitled "Task Order – Technical Engineering Services" in this Part). The total negotiated price for incidental materials for each task order shall not exceed \$100,000.

(m) Use of Governmentwide Commercial Purchase Card. The following describes the procedures to be used for ordering items under this contract by using a purchase card. This option to order by use of the purchase card is strictly an alternative method of ordering by the Government and may be used in place of ordering by other order forms that comply with FAR 12.204. The Government reserves the right to unilaterally terminate the use of the purchase card at any time.

1. All ordering offices may use the purchase card as an alternative method of ordering and paying for purchases made under this contract. Purchase card orders are subject to all terms and conditions of this contract, unless otherwise stated in this provision or another provision in this contract. **Purchase card orders that exceed \$3,000 in value are required to follow procedures stated in the paragraph "Ordering Procedures for Orders Exceeding \$3,000" in this Part C-1-1.**

2. The purchase card is specifically designed for use by the Federal Government. The purchase card is like a typical commercial credit card. However, the authorization limitations of the purchase card are more specific, i.e., only for a particular contract, monthly limitations, certain categories of products or services, etc. The purchase card will be exclusively used for official Government purchases in accordance with the prices, terms, and conditions of this contract. With respect to ordering authority, any authorized user of this contract who is an appointed, recognized Governmentwide Purchase Card holder may use the purchase card as a means of purchasing items on this contract. For purchase card orders only, this waives the requirement for use of other forms that comply with FAR 12.204. All appointed, recognized Governmentwide Purchase Card holders are subject to and responsible for complying with all the rules, regulations, and limits that come with his/her purchase card.

3. Limits for the purchase card are dictated by each using activity major command. These limits for the purchase card are the responsibility of the purchase card holder and the approving office.

4. The Contractor shall accept firm-fixed-price purchase card orders under the contract made by use of an authorized purchase card.

5. For purchase card orders only, the warranty begins on the day the order is shipped.

(n) Government Contractors' Use of Contract.

1. If it is in the Government's interest, and if supplies or services required in the performance of a Government contract are available under this contract, Government contracting officers may authorize Contractors to order items or services from the contract under the authority and procedures set out in FAR Part 51, including placing limitations on the orders (51.102(e)(4)). However, Government contracting officers shall not grant such

authorization without the prior approval of the PCO. Before issuing an order, the Government Contractor shall forward the order through the Government contracting officer granting the authorization and the PCO for this contract. General guidance on submitting requests for the PCO's approval for a Government Contractor to place an order against the contract can be found at: <http://www.ait.army.mil/contracts/rfidiii/rfidiii.html>.

2. Title to all property acquired by a Government Contractor under such an authorization shall vest in the Government unless otherwise specified in the Government Contractor's contract. Such property shall not be considered to be "Government-furnished property," as distinguished from "Government property." The provisions of the clause entitled "Government Property," except its paragraphs (a) and (b), shall apply to all property acquired under such authorization. Authorized ordering Contractors may use their standard commercial ordering formats to place orders under this contract and the orders shall reference the Contract Number.

(p) Current Technology Substitutions and Additions.

1. Changes within the general scope of the contract may be proposed for the purpose of substitutions, or additions to assure that state-of-the-art, commercial items are readily available for ordering under this contract.

(A) Product substitutions are replacements of CLIN list items that have been officially announced as either out of production or no longer supported by the original equipment manufacturer (OEM). Substituted items shall be at the same or greater performance for the same or lesser price of the CLIN List items being replaced. Substitutions are not subject to price increases.

(B) Additions provide for new functionality not available on contract that can be determined to be within the general scope of the contract. A new CLIN or Sub-line Item Number (SLIN) will be added to the contract for the addition of the new item. Prices will be negotiated.

(A) A comparative description, in detail, of the difference between the existing contract item and the proposed product substitution and a specific analysis of the comparative advantages and disadvantages of each. For additions, the proposal shall provide a complete description of the new item and a correlative analysis of how the new item will benefit the Government.

(B) Specific items contained in the Contract that are proposed to be changed if the proposal is accepted (e.g., if new equipment is offered to replace currently installed, will the old be exchanged for the new, and on what basis).

(C) A statement as to how the changes will affect performance, costs, etc., if accepted, and an item-by-item summary of any "street pricing" of the items including a reference to the source of the "street price" and GSA Schedule pricing, if any, to include GSA Schedule Number. If the Government issues a Request for Proposal (RFP) for a technology change or any other type of change to the contract in accordance with C-1(c), the Contractor shall submit a CCP within 15 calendar days of RFP date, unless the RFP specifies a later RFP due date. Regardless of which party initiates a proposed contract change, should the Government request supplemental information to analyze the Contractor's proposal, the Contractor shall provide the additional information within 7 calendar days of the request, unless the Government's request specifies a later due date.

(r) Only New Equipment. Only new equipment shall be delivered under this contract. The Contracting Officer will not grant approval for used equipment.

Notwithstanding the foregoing, the commercial product license shall apply only if a copy of the license is provided with the delivered product. In the event of conflict between this clause and the commercial software product license, this clause's subparagraphs 1 through 6 shall govern.

2. All software shall be licensed and priced for use on a single computer or for use on any computer at a particular site.

3. The license shall be in the name of the U.S. Government.

4. The license shall be perpetual (also referred to as a nonexclusive, paid-up, world-wide license).

5. Software and Software documentation shall be provided with license rights no less than rights provided with the software and the software documentation when sold to the public.

6. The license shall apply to any software changes or new releases.

After making this assessment, the Government will make a determination with regard to the feasibility of the Government performing all RFID-III hardware maintenance using organic capabilities. In the event the Government determines it is desirable to perform all RFID-III maintenance functions in-house, the Government reserves the right to negotiate with the Contractor for necessary hardware replacement parts and Government-designated personnel maintenance training in accordance with commercial practice in these areas.
